Re: Beethoven Symphonies/Biret

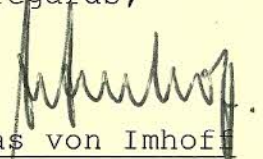

Dear Mr. Devos,

Unfortunately, I have not yet received a reply regarding my last telex. Having listened to the two tapes you gave us, we discovered some mistakes in playing and editing. Could you please confirm that these mistakes can be corrected.

Recently I discussed your offer with my international colleagues and they agree that it would be a good idea to issue this material as a complete box next autumn. The box would contain six LPs. We would, however, like to have a more feasible royalty agreement. From our point of view it should contain something around 8 - 10% royalties for box issue. From the marketing point of view, I only see the chance of issuing this in a box set to compete with the Telefunken/Katsaris version.

Please let me have your comments in the next few days. We should start thinking about cover and packaging as soon as possible.

Kind regards,

Andreas von Imhoff
